

# MORE ENERGY!

Never change a smart design, but...

...we have boosted Torque by 200%

Battery life by 20%

But we kept the compact size and versatility.

## PowerAttack

**PowerAttack – The Load Mover**  
 The innovative idea to move loads on passive, unpowered skates or trolleys instead of a fork-lift truck.

Designed, manufactured and guaranteed by:

# Moving loads the easy way with PowerAttack

## The idea.

### Applied mechanics!

Moving loads with "lever" and "traction".  
PowerAttack is easy to transport and then is hooked-up to the steerable skate with a provided adaptor... and then you go!

Moving machines up to 30 tons, depending on surface, quality of skates etc.

Watch the movie on the website!

Top: 3 PowerAttacks are moving a 75 t condenser

### PowerAttack MTC 30 CC – CordLess Compact

Powered by a 24 V Synchronous motor with 1 KW output, generating 800Nm to drive-wheels, smooth variable speed control from 0 - 20 m/min and operation with forward-backward function and integrated-brake and emergency button. Compact length of 1650 mm/65 in, 2 stage telescoping each 250 mm/10 in to a total of 2150 mm/85 in, width 380 mm/15 in, weight 75 kg/165 lbs.

1 Charge unit and 2 BatteryPacks are standard delivery with each 22,5 Ah Power output – with latest Lithium-Ion technology - no memory – effect. Typical battery life under working conditions 4 hrs. Charge time per battery 5 hrs.

### PowerAttack MTC 25 C - Compact

With 2 electronically controlled variable speeds from 0 - 5 m/min or 0 - 20 m/min in forward - backward action, with 230 V or 110 V drive motor available. Compact length of 1650 mm/65 in, 2 stage telescoping each 250 mm/10 in to a total of 2150 mm/85 in, width 380 mm/15 in, weight 50 kg/110 lbs.

All PowerAttacks come with a 2 wheel aux trolley for easy transport to the site. Once PowerAttack is hooked up this "landing gear" folds under the main tube while working – held by magnet!
